Election/Restriction

1. The following is a supplemental restriction requirement for the pending claims which replaces the restriction mailed 7-22-05 and is provided to correctly identify the distinctness between the groups of claims listed below.

2. Restriction to one of the following inventions is required under 35 U.S.C. 121:

I. Claims 1-20 and 31-34, drawn to an absorbent article, classified in class 604, subclass 383, and

II. Claims 21-30, drawn to a method of making a composite intermediate layer, classified in class 156, subclass 196.

3. The inventions are distinct, each from the other because of the following reasons: Inventions II and I are related as process of making and product made. The inventions are distinct if either or both of the following can be shown: (1) that the process as claimed can be used to make other and materially different product or (2) that the product as claimed can be made by another and materially different process (MPEP 806.05(f)).

In the instant case the non-woven web of fibers can be apertured before bonding to the three dimensional film and the three dimensional film can be apertured a second time after bonding using the apertures in non-woven web of fibers as a guide for aperture placement.

4. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classifications, restriction for examination purposes as indicated is proper.

5. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

6. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or

Art Unit: 1734

more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
